

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building scalable full-stack applications for enterprise clients. Skilled in modern technologies with a focus on performance, maintainability, and user-centric design. Proven ability to deliver high-quality, business-critical solutions through team collaboration. Strong interest in AI, supported by hands-on project experience in deep learning and computer vision.

WORK EXPERIENCE

- Associate Software Engineer @ TS Technologies (Pvt) Ltd

MARCH 2024 — PRESENT

 - Contributed to the development of applications used by 50+ top companies, ensuring responsive designs and seamless user experiences.
 - Ensured high-quality, business-critical functionalities to meet requirements.
 - Optimize application performance and ensure responsiveness across platforms.
- Intern Software Engineer @ DirectFN (Pvt) Ltd

MARCH — NOV 2022

 - Contributed to the development and maintenance of a Fintech application used by 100+ corporate clients, enabling merchants and stakeholders to make informed decisions.
 - Resolved application bugs and implement new features to maintain system stability and performance.
 - Collaborated with senior developers to meet project deadlines and ensure code quality.

EDUCATION

- MSc in Artificial Intelligence

JULY 2025 — PRESENT

Sri Lanka Institute of Information Technology (SLIIT)
- BSc (Hons) in Information Technology specializing in Software Engineering

FEB 2020 — MARCH 2024

Sri Lanka Institute of Information Technology (SLIIT)

 - Graduated with a Second Class Lower Division (CGPA > 3.0)
- Passed GCE A/L Examination (Physical Science Stream)

2019

Holy Cross College, Gampaha

TECHNICAL SKILLS

Languages & Frameworks	React, TypeScript, JavaScript, Node.js, Next.js, Express, NestJS, Redux, Zustand, Tailwind, CSS, MUI, Java, Android Studio, React Native
Cloud & Database	Firebase, MongoDB, MySQL, Git, CI/CD, AWS
Tools & Practices	ESLint, Prettier, Webpack, Vite, Postman, Figma, Agile Scrum

CERTIFICATES & AWARDS

- Dean's List recognition in the year 2022 for outstanding academic performance by SLIIT
- JavaScript Foundations Professional Certificate by Mozilla
- Career Essentials in Generative AI by Microsoft and LinkedIn
- Micro services Foundations Professional Certificate by Kong

PROJECTS

Digital Signage Solution (Associated with TS Technologies (Pvt) Ltd)

React, Bootstrap, Konva, Springboot, Mysql, MQTT

- Contributed in a digital signage solution enabling users to create custom designs, schedule content, and transfer it to screens, enhancing user engagement and simplifying content management.

CRM (Associated with TS Technologies (Pvt) Ltd)

React, Zustand, Bootstrap, Springboot, Mysql

- Developed and maintained a comprehensive CRM system to streamline end-to-end service and sales operations. Focused on enhancing the overall sales journey, from initial engagement to post-service follow-up, while enabling sales teams to operate more efficiently and effectively.

Pro11 (Associated with DirectFN (Pvt) Ltd)

Emberjs, Bootstrap, Sass, Javascript

- Contributed to the development of a fintech solution designed to provide merchants and stakeholders with real-time financial data, analytics, and tools for informed decision-making, enhancing efficiency and market insights.

Eye Care | Final Year Research Project

Deep Learning, Image Processing, Python, JavaScript, Firebase

- Developed a mobile application utilizing deep learning to detect eye diseases from retinal images, including diabetic retinopathy. Assisted eye specialists in making accurate diagnoses through reliable and efficient disease identification.

Blogging Platform

Nextjs, TypeScript, Redux, Tailwind CSS, Nodejs, Express, JWT, MongoDB, Bcrypt

- A responsive web application where authorized users can create, view, edit and delete blog posts. Security is implemented using techniques such as Json Web Tokens (JWT), protected routes, input validation and password hashing.
